CONTENTS

No. 1. SEPTEMBER, 1925

ALDEN B. DAWSON. The age order of epiphyseal union in the long bones of the albino rat. Three plates (twelve figures) 1

B. L. WARWICK. The effect of vasectomy on swine 19

DONALD C. KEYES AND HOWARD C. KEYES. A case of persistent left superior vena cava with reversed azygos system. Two figures 23

B. I. BURNS. The development of the nose in the spermophile, with particular reference to the part played by the primitive choanae in the formation of the nasal cavity in mammals. Twelve figures 27

WARREN H. LEWIS. The engulfment of living blood cells by others of the same type. One plate (six figures) 43

H. E. JORDAN. Varieties and the significance of giant-cells 51

C. C. SPEIDEL. Studies of hyperthyroidism. I. Experimental hyperthyroidism and the germ glands in amphibians, with special reference to the primitive interstitial tissue. One plate (five figures) 65

V. J. BUSHKOVITCH. A case of anomaly of the lower end of the aorta. Three figures.. 79

No. 2. OCTOBER, 1925

ROBERT T. HANCE. The fixation of avian chromosomes. Four figures 87

BARRY J. ANSON. 'Denticles' in shape and arrangement suggestive of selachian teeth on the inner surface of the lip of the cat. Three plates 93

JEAN LHERMITTE AND WALTER M. KRAUS. On the form of the anterior horn cells. Four figures 123

E. C. MACDOWELL AND E. M. LORD. The number of corpora lutea in successive mouse pregnancies. Four figures 131

E. C. MACDOWELL AND E. M. LORD. Data on the primary sex ratio in the mouse 143

C. H. THIENES. Venous system associated with the liver of a 6-mm. pig embryo. Six figures 149

K. F. BASCOM AND H. L. OSTERUD. Quantitative studies of the testicle. II. Pattern and total tubule length in the testicles of certain common mammals 159

H. MCE. KNOWER. Book Review. General Zoölogy, by H. L. Wieman, Ph.D. (Chicago). 171

No. 3. NOVEMBER, 1925

DAVID T. JONES. The protractile apparatus of the mouth of the pumpkinseed sunfish, Eupomotis gibbosus L. Seven figures 173

AVERY E. LAMBERT. A rare variation in the pectoralis minor muscle. Two figures..... 193

ROBERT H. BOWEN. Further notes on the acrosome of the animal sperm. The homologies of non-flagellate sperms. Five figures 201

HOMER B. LATIMER. The relative postnatal growth of the systems and organs of the chicken. Ten charts 233

T. H. BAST, W. E. SULLIVAN, AND F. D. GEIST. The repair of bone. Fourteen figures.. 255

HARRY A. KULL. A method of blood staining which replaces injections. One figure... 281

No. 4. DECEMBER, 1925

American Society of Zoölogists, Twenty-third Session:

Program 286
List of titles..... 288
Exhibits 295
Abstracts 297
Constitution, officers, meeting places..... 359
Officers for 1925..... 367

C. M. CHILD. The physiological significance of the cephalocaudal differential in vertebrate development 369

J. S. NICHOLAS. Notes on the application of experimental methods upon mammalian embryos 385
